4th International Conference on Rice for the Future

ICRF2026

Detailed Program

"One Health Rice: Transforming Food, Climate and Health Through Rice Innovation"

23–24 November 2026

Centara Grand at CentralPlaza Ladprao, Bangkok

PARALLEL SESSIONS AT A GLANCE

Day 1 · Monday, 23 November 2026	parallel sessions 15:05–17:30		
15:05–17:15	**Rice Genomics / Rice-omics**	Vibhavadee Ballroom B	*Samart Wanchana*
15:05–17:15	**Abiotic Stress (I)**	Vibhavadee Ballroom C	*Julie Gray*
15:05–17:30	**Novel Rice Processing and Product Innovation**	Ladprao Suite 1-2	*Savitree Ratanasumawong*
15:05–17:15	**Agri-tech**	Ladprao Suite 3-4	*Watchareewan Jamboonsri*
Day 2 · Tuesday, 24 November 2026	parallel sessions 14:10–16:45		
14:10–16:45	**Climate Change**	Ladprao Suite 1-2	*Piyada Theerakulpisut*
14:10–16:30	**Rice Genomics / Rice-omics**	Vibhavadee Ballroom B	*Varodom Charoensawan*
14:10–16:20	**Biotic Stresses**	Vibhavadee Ballroom C	*Phanchita Vejchasarn*
14:10–16:25	**Health, Medical & Pharmaceutical + Abiotic Stress (II)**	Ladprao Suite 3-4	*Chanakan Prom-u-thai*
	Vibhavadee Ballroom A-B-C (Lobby Level) / Ladprao Suite 1-4 (Mezzanine Level)		

HOW TO READ THIS PROGRAM

Plenary speaker	Keynote talks in the main hall.
Invited speaker	Invited talks, inside the parallel sessions or in the main hall.
Sponsor talk	Talks presented by conference sponsors.
Ceremony	Opening, official remarks and the closing ceremony.
Poster session	Posters are displayed in the poster / exhibition area.
Break	Coffee, lunch and exhibition breaks.

OSx-xx is the reference code of an approved oral abstract (the same code is used in the Abstract Proceedings). Every item shows start–end time and its length, e.g. **15:30–15:45** (15 min).

DAY 1

Monday, 23 November 2026

Centara Grand at CentralPlaza Ladprao, Bangkok · Plenary hall · 08:30–12:10

08:30–09:00 (30 min)

Registration

participants, speakers and distinguished guests register and enter the meeting room

09:00–09:05 (5 min)

Welcome & Introduction

Venue Vibhavadee Ballroom B-C

09:05–09:10 (5 min)

Welcome Address & Report

Asst. Prof. Dr. Khongsak Thiangtum President, Kasetsart University

Welcomes all participants on behalf of the host institution and reports to the Presiding Officer on the background, objectives and importance of the conference, and on the role of Kasetsart University and its network in driving rice research and innovation in Thailand.

09:10–09:15 (5 min)

Remarks on Rice Research Support

Dr. Wiparat De-ong Executive Director, National Research Council of Thailand (NRCT)

Speaks on the role of the National Research Council of Thailand (NRCT) in supporting rice research and innovation and in moving research results into use, to create value and impact for farmers, the economy and society.

09:15–09:25 (10 min)

Opening Address & Official Opening Declaration

Mr. Danuphorn Punnakanta Vice Minister for Higher Education, Science, Research and Innovation (MHESI) (Presiding Officer)

Delivers the Opening Address on behalf of H.E. Professor Dr. Yodchanan Wongsawat, Deputy Prime Minister and Minister of Higher Education, Science, Research and Innovation, and officially declares ICRF2026 open.

09:25–09:35 (10 min)

Group photo with the Presiding Officer, organizing committee, invited speakers and representatives of network organizations

09:35–10:00 (25 min)

Exhibition & Break The Presiding Officer visits the exhibition of rice research, innovation and technology

Venue Exhibition area & Coffee Break

10:00–10:30 (30 min)

PLENARY SPEAKER

Venue Vibhavadee Ballroom B-C

Future Directions for Biofortification

Howarth Bouis Founding Director, HarvestPlus; Emeritus Fellow, International Food Policy Research Institute (IFPRI), United States

10:30–10:55 (25 min)

PLENARY SPEAKER

Thai Rice Reimagine

Apichart Vanavichit Rice Science Center, Kasetsart University, Thailand

10:55–11:20 (25 min)

PLENARY SPEAKER

Advancing rice flour processing: Biocatalytic modification for the development of slowly digestible carbohydrate ingredient

Byung-Hoo Lee Department of Food Science & Biotechnology, Sejong University, South Korea

11:20–11:45 (25 min)

PLENARY SPEAKER

Putting the Farmer at the Centre of Change: Challenges and Lessons Learned from Sustainable Rice Production

Peter McAllister Executive Director, Sustainable Rice Platform (SRP), Thailand

11:45–12:10 (25 min)

PLENARY SPEAKER

GCF Thai Rice: Scaling Climate-Smart Rice Innovation through technology, finance and institutional ownership

Nana Kuenkel Cluster Director Agriculture and Food, GIZ, Thailand

DAY 1 — Monday, 23 November 2026 (continued)

Centara Grand at CentralPlaza Ladprao, Bangkok · Plenary hall · 12:10–15:00

12:10–13:10 60 min	**Lunch**	**Venue** Vibhavadee Ballroom A
13:10–13:55 45 min	**Poster Session**	**Venue** Poster area / Exhibition area
13:55–14:10 15 min	SPONSOR TALK **Making the Invisible Visible: High-Throughput Phenotyping Reveals the Hidden Life of Roots** *Martin Trtilek* Photon Systems Instruments (PSI), Czech Republic	**Venue** Vibhavadee Ballroom B
14:10–14:35 25 min	PLENARY SPEAKER **Stomata and climate resilience** *Julie Gray* School of Biosciences, University of Sheffield, United Kingdom	
14:35–15:00 25 min	PLENARY SPEAKER **Unraveling the Jasmonate Regulation of Adventitious Root Development and Defense Response in Rice** *Antony Champion* Research Director, DIADE, Institut de Recherche pour le Développement (IRD), Université de Montpellier, France	

DAY 1 — Parallel sessions

Monday, 23 November 2026 · Centara Grand at CentralPlaza Ladprao · 15:05–17:30

Rice Genomics / Rice-omics

Vibhavadee Ballroom B

CHAIR Samart Wanchana
National Science and Technology Development Agency (NSTDA)

CO-CHAIR Wasin Poncheewin
National Science and Technology Development Agency (NSTDA)

15:05–15:25 (20 min) **OS1-08**
Beyond a Single Reference: A Graph-Based Pan-Genome Framework for Exploring Thai Rice Genomic Diversity
Phanchita Vejchasarn Rice Department, Thailand

15:25–15:45 (20 min) **INVITED**
Advancing Salt-tolerant Rice with ThermoCas9: an Open-access Gene-editing Toolkit for LMICs
Joram A. Dongus Wageningen University & Research (video presentation), Netherlands

15:45–16:05 (20 min) **INVITED**
Near-Isogenic Line Genomes Decode Flooding Tolerance in Rice
Kyung Do Kim Department of Integrative Biological Sciences and Industry, Sejong University, South Korea

16:05–16:25 Coffee Break (20 min)

Abiotic Stress (I)

Vibhavadee Ballroom C

CHAIR Julie Gray
University of Sheffield, United Kingdom

CO-CHAIR Kanamon Riangwong
Silpakorn University

15:05–15:25 (20 min) **INVITED**
Promoter Editing of OsGTL1 Affects Stomatal Development and Water Use Efficiency
Supachitra Chadchawan Chulalongkorn University, Thailand

15:25–15:40 (15 min) **OS3-12**
Can Stomatal Density Predict Photosynthetic Performance and Drought Resilience in Rice?
HsiangChun Lin National Taiwan University, Taiwan

15:40–15:55 (15 min) **OS3-14**
Identification of Leaf Structural Changes and Candidate Genes for Rice Drought Tolerant Physiology and Yield
Jolly Chatterjee International Rice Research Institute (IRRI), Philippines

15:55–16:15 Coffee Break (20 min)

Novel Rice Processing and Product Innovation

Ladprao Suite 1-2 (Mezzanine Level)

CHAIR Savitree Ratanasumawong
Kasetsart University

CO-CHAIR Nongnuch Siriwong
Kasetsart University

15:05–15:25 (20 min) **INVITED**
Properties of Amorphous Rice Flour Produced by SHMM (Shear and Heat Milling Machine) and Application in Rice Gels
Hiroko Yano Graduate School of Organic Materials Science, Yamagata University, Japan

15:25–15:40 (15 min) **OS4-01**
Cluster-based Characterization of Thermomechanical Structuring in Rice Bran Oil Oleogels Fabricated by Winterized Rice Bran Wax and Surfactants
Parichat Hongsprabhas FoodInnovate Co., Ltd., Thailand

15:40–15:55 (15 min) **OS4-05**
Enhancing the Convenience of Whole-Grain Nutrition: Retort Processing of Unpolished Low-Amylose NSIC Rc218 SR Rice
Adeliza Dorado University of the Philippines Los Baños, Philippines

15:55–16:15 Coffee Break (20 min)

Agri-tech

Ladprao Suite 3-4 (Mezzanine Level)

CHAIR Watchareewan Jamboonsri
National Science and Technology Development Agency (NSTDA)

CO-CHAIR Chanate Malumpong
Kasetsart University

15:05–15:25 (20 min) **INVITED**
Structure-Property-Performance Relationships of Lignocellulosic Biochar in Agricultural Soils
Chanchana Thanachayanont National Metal and Materials Technology Center (MTEC), NSTDA, Thailand

15:25–15:40 (15 min) **OS6-02**
Polymer-R: An Innovative Fertilizer Coating for Mitigating Nitrous Oxide Emissions and Enhancing Nitrogen Use Efficiency in Paddy Fields
Patcharaporn Rakchum Rice Department, Thailand

15:40–15:55 (15 min) **OS6-06**
Advancing Rice Safety through Automated Analytical Technologies for Pesticide Residue Screening
Sandrine Parammy CROIZIERS DE LACVIVIER NattoLab, Thailand

15:55–16:15 Coffee Break (20 min)

DAY 1 — Parallel sessions (continued)

Monday, 23 November 2026 · coffee break and the rest of the day

Rice Genomics / Rice-omics
Vibhavadee Ballroom B

16:25–16:45 (20 min) — INVITED

DNA Methylation Changes During Long-Term Rice Adaptation

Pao-Yang Chen Institute of Plant and Microbial Biology, Academia Sinica, Taiwan

16:45–17:00 (15 min) — OS1-01

Methylation Heterogeneity as an Indicator of Epigenetic Regulation and Gene Expression in Rice

Pei-Yu Lin Academia Sinica, Taiwan

17:00–17:15 (15 min) — OS3-17

Epigenetic Plasticity and Transcriptional Reprogramming During Rice Regeneration and Transformation

Fei-Man Hsu National Taiwan University, Taiwan

Abiotic Stress (I)
Vibhavadee Ballroom C

16:15–16:30 (15 min) — OS3-11

From Weed to Resource: Weedy Rice as a Source of Heat and Submergence Tolerance for Climate-Resilient Rice

Te Ming Paul Tseng Mississippi State University, United States

16:30–16:45 (15 min) — OS3-05

Multi-Trait-Based Identification of Putative Drought–Heat Tolerant Rice Mutants Through Artificial Screening at The Seedling Stage

Achmad Kautsar Baharuddin Hasanuddin University, Indonesia

16:45–17:00 (15 min) — OS3-03

Optimizing Artificial Screening of Salinity–Drought Tolerance in M_2 Mutant Rice Utilizing Rapid Generation Advance and Image-Based Plant Phenotyping

Muhammad Fuad Anshori Hasanuddin University, Indonesia

17:00–17:15 (15 min) — OS3-16

Dose-Dependent Alleviation of Salinity Stress in Rice Seedlings by Salicylic Acid: Growth, Water Relations, and Membrane Integrity

Kumala Dewi Universitas Gadjah Mada, Indonesia

Novel Rice Processing and Product Innovation | Ladprao Suite 1-2

16:15–16:30 (15 min) — OS4-04

Engineering Shelf-Stable Ready-to-Eat Adobo Rice: Process Optimization and Thermal Validation

Dennis Cantre Institute of Food Science and Technology, University of the Philippines Los Baños, Philippines

16:30–16:45 (15 min) — OS4-02

Development of Gluten-Free Macaroni-Type Pasta from Sago Starch and Annealed White and Pigmented Rice Flours: Physicochemical and Dietary Fiber Characteristics

Rina Rismaya Universitas Terbuka Indonesia, Indonesia

16:45–17:00 (15 min) — OS4-03

Effect of Hydrothermal and Dry Heat Treatment on the Quality Improvement of Dried Rice Noodles from Freshly Harvested Rice

Patthakorn Manupeerapan Kasetsart University, Thailand

17:00–17:15 (15 min) — OS4-06

Fungal Control and Quality Responses of Electron Beam-Irradiated Riceberry Rice during Storage

Yasmin Azzahra King Mongkut's University of Technology Thonburi, Thailand

17:15–17:30 (15 min) — OS4-07

Scalable Production, Bioactive Profiling, and Industrial Applications of Rice Malt Extract Powder

Yupakanit Puangwerakul Rangsit University, Thailand

Agri-tech
Ladprao Suite 3-4

16:15–16:30 (15 min) — OS6-04

Drones, Computer Vision, and Machine Learning for Precision Weed and Crop Management in Rice

Muthukumar Valayapalayam Bagavathiannan Texas A&M University, United States

16:30–16:45 (15 min) — OS6-01

Machine-Learning Prediction of Rice Yield from Satellite-Derived Indices Using PyCaret

Burin Thunnom BIOTEC, NSTDA, Thailand

16:45–17:00 (15 min) — OS6-03

From Sequence Reads to Cross Decisions: Genomic Decision-Support System for Rice Breeding

Wisuwat Sunhem EASY RICE DIGITAL TECHNOLOGY CO., LTD., Thailand

17:00–17:15 (15 min) — OS6-05

AI for Rice Phenotyping: Lessons from the Field

Vorrapard Kumthongdee Fusion Solution, Thailand

DAY 2 — Tuesday, 24 November 2026

Centara Grand at CentralPlaza Ladprao, Bangkok · Plenary hall · 08:30–14:10

08:30–08:55 25 min	PLENARY SPEAKER **Introduction of a Moonshot project "Developing Environmentally Robust Crops based on Crop Design Technology"** *Toru Fujiwara* Graduate School of Agricultural and Life Sciences, The University of Tokyo, Japan	**Venue** Vibhavadee Ballroom B-C
08:55–09:20 25 min	PLENARY SPEAKER **Photosynthetic Heat Resilience Phenotyping, Scaling from Cell to Field** *Erik Murchie* School of Biosciences, University of Nottingham, United Kingdom	
09:20–09:45 25 min	PLENARY SPEAKER **Harnessing Genome Editing for Healthier and Climate-Resilient Rice** *Inez Slamet-Loedin* Rice Genetic Design & Validation Unit, International Rice Research Institute (IRRI), Philippines	
09:45–10:05 20 min	**Coffee Break**	
10:05–10:30 25 min	PLENARY SPEAKER **From Molecular Mechanisms to Applications: Understanding and Controlling Flowering Time in Rice** *Takeshi Izawa* Department of Agricultural and Environmental Biology, The University of Tokyo, Japan	
10:30–10:55 25 min	PLENARY SPEAKER **Artificial Intelligence aided precision breeding approaches to breed next generation high-quality nutritious rice varieties** *Nese Sreenivasulu* International Rice Research Institute (IRRI), Philippines	
10:55–11:20 25 min	PLENARY SPEAKER **NLSS3 Protects SHM1 from ATG8d-Mediated Autophagic Degradation to Regulate Leaf Morphology and Salt Tolerance in Rice** *Zhang Guangheng* China National Rice Research Institute, China	
11:20–11:45 25 min	PLENARY SPEAKER **Strategies to Reduce Heavy Metal Accumulation in Rice** *Fangjie Zhao* College of Resources and Environmental Sciences, Nanjing Agricultural University, China	
11:45–12:10 25 min	PLENARY SPEAKER **Mycotoxins in Rice: Occurrence, Detection, and Mitigation Strategies** *Nitsara Karoonuthaisiri* National Center for Genetic Engineering and Biotechnology (BIOTEC), NSTDA, Thailand	
12:10–13:10 60 min	**Lunch**	**Venue** Vibhavadee Ballroom A
13:10–14:10 60 min	**Poster Session**	**Venue** Poster area / Exhibition area

DAY 2 — Parallel sessions

Tuesday, 24 November 2026 · Centara Grand at CentralPlaza Ladprao · 14:10–16:45

Climate Change

Ladprao Suite 1-2 (Mezzanine Level)

CHAIR Piyada Theerakulpisut
Khon Kaen University

CO-CHAIR Jonaliza L. Siangliw
National Science and Technology Development Agency (NSTDA)

14:10–14:30 (20 min) — INVITED
Potential Mitigation Measures in Rice Cultivation
Bui Tan Yen
International Rice Research Institute (IRRI), Philippines

14:30–14:45 (15 min) — OS2-05
Sustainable Rice Platform Performance Indicators as a Framework for Farmer-centered Extension and Sector Monitoring
Matt Champness FAO, Thailand

14:45–15:00 (15 min) — OS2-02
Agronomic and Yield Performance of Two Rice (Oryza sativa L.) Azucena Bi-parental Mutant Populations Grown Under Conventional and Field Rapid Generation Advance Conditions in Los Baños, Laguna, Philippines
Darren Joy Gandas Central Philippine University, Philippines

15:00–15:15 (15 min) — OS2-08
Developing an Advanced Rice Cultivation Model to Produce High Quality Rice, and Improve Soil Health for the Climate Resilience and Mitigation in the Vietnamese Mekong Delta Region
Khoi Nghia Nguyen Can Tho University, Vietnam

Rice Genomics / Rice-omics

Vibhavadee Ballroom B

CHAIR Varodom Charoensawan
Mahidol University

CO-CHAIR Pornpipat Kasemsap
Chulalongkorn University

14:10–14:25 (15 min) — SPONSOR TALK
Intelligent Automation in Rice Breeding: From Genomics to Phenomics
Lianxing Yang HC Scientific Bio (Chengdu) L.L.C., China

14:25–14:40 (15 min) — OS1-07
Production of Rice Zygote in vitro: For Investigating Basic Plant Biology and Establishing New Breeding Technology
Kasidit Rattanawong Tokyo Metropolitan University, Japan

14:40–14:55 (15 min) — OS1-06
Distal Cis-Regulatory Elements Mediate Morning Light Activation and Circadian Gating of the Rice Flowering Repressor Ghd7
Takumi Kawauchi The University of Tokyo, Japan

14:55–15:10 (15 min) — OS1-05
Mining and Breeding Utilization of Salt Tolerance Gene qSL7 in Rice
Longbiao Guo China National Rice Research Institute, China

15:10–15:25 (15 min) — OS1-03
Genomic Selection for Culm Strength-Related Traits in Rice (Oryza sativa L.)
Swargam Vaishnavi Indian Institute of Rice Research, India

Biotic Stresses

Vibhavadee Ballroom C

CHAIR Phanchita Vejchasarn
Rice Department

CO-CHAIR Chatchawan Jantasuriyarat
Kasetsart University

14:10–14:30 (20 min) — INVITED
Strain-Specific Thermotolerance in Pyricularia oryzae Is Associated with Temperature-Dependent Appressorium Development and Pathogenicity
Chatchawan Jantasuriyarat Kasetsart University, Thailand

14:30–14:45 (15 min) — OS3-04
Spray-Induced RNA Silencing for Sustainable Control of Rice Blast in Thai Rice
Vanvimon Saksmerprome BIOTEC, NSTDA, Thailand

14:45–15:00 (15 min) — OS3-15
Fungicide-Compatible Trichoderma sp. Suppresses Three Rice Diseases and Outyields Chemical Control in 'Morkhor 60-1'
Shanerin Falab Khon Kaen University, Thailand

15:00–15:15 (15 min) — OS3-08
The Potential of Endophytic Bacteria from West Sumatra Local Rice Seed Varieties to Suppress Xanthomonas oryzae pv. oryzae Growth and Enhance Rice Seedling Growth
Haliatur Rahma Universitas Andalas, Indonesia

15:15–15:30 (15 min) — OS3-06
Silicon-Mediated Suppression of Brown Planthopper in Rice: A Sustainable Approach to Enhance Plant Health
Mohammed Abul Monjur Khan Bangladesh Agricultural University, Bangladesh

Health, Medical & Pharmaceutical + Abiotic Stress (II)

Ladprao Suite 3-4 (Mezzanine Level)

CHAIR Chanakan Prom-u-thai
Lanna Rice Research Center, Chiang Mai University

CO-CHAIR Sompong Chankaew
Khon Kaen University

14:10–14:30 (20 min) — INVITED
Rice as a Clinically Proven Dietary Strategy Against Obesity and Diabetes
Pornpoj Pramyothin Faculty of Medicine Siriraj Hospital, Mahidol University, Thailand

14:30–14:50 (20 min) — INVITED
Unlocking the Health Potential of Thai Rice: From Biodiversity to Processing Innovation
Sunee Chotineeranat National Center for Genetic Engineering and Biotechnology, Thailand

14:50–15:05 (15 min) — OS5-02
Rice-Derived Biopolymers for Sustainable Pharmaceutical and Biomedical Applications: From Grain and By-products to Health Innovation
Vorawut Wongumpornpinit University of Phayao, Thailand

15:05–15:20 (15 min) — OS5-01
Structured Rice Bran Stearin HIPEs as Functional Lipids for Minimizing Invisible Fat Consumption
Parichat Hongsprabhas FoodInnovate Co., Ltd., Thailand

DAY 2 — Parallel sessions (continued)

Tuesday, 24 November 2026 · coffee break and the rest of the day

Climate Change
Ladprao Suite 1-2

15:15–15:30 (15 min) OS2-04
Projecting Spatiotemporal Shifts in Phenology of Southeast Asian Commodity Crops Through A Simple Growing Degree Day Model for Near and Midterm Climate Change Scenarios
Gabriel Mesina University of the Philippines Diliman, Philippines

15:30–15:45 Coffee Break (15 min)

15:45–16:00 (15 min) OS2-03
Climatic Elasticities of Rice Yield under Irrigated and Rainfed Production Systems in Selected Visayan Provinces, Philippines
Rehel Diaz Silliman University, Philippines

16:00–16:15 (15 min) OS2-01
Cultivating Livelihood Survival: The Direct Impact of Entrepreneurial Competencies on Rice Farm Resilience
Wacharat Thomthong Lincoln University, Thailand

16:15–16:30 (15 min) OS2-06
Life Cycle Assessment of Rice Cultivation in China
Wachiravit Trangan Mahidol University, Thailand

16:30–16:45 (15 min) OS2-07
Driving the BCG Model via Multi-Technology to Mitigate Heavy Metal Pollution Risks and Upgrade Sustainable Rice Production (SRP): A Case Study of Rice Innovation Community in Baan Dai Sub-district, Mae Sai District, Chiang Rai Province
Ampon Rungamornphong Kasetsart University, Thailand

Rice Genomics / Rice-omics
Vibhavadee Ballroom B

15:25–15:45 Coffee Break (20 min)

15:45–16:00 (15 min) OS1-09
Genome-Wide Association Study of Rice Vegetative Growth Under Ammonium or Nitrate Nutrition
Pornpipat Kasemsap Chulalongkorn University, Thailand

16:00–16:15 (15 min) OS1-04
Elucidating Genetic Variation Underlying Beneficial Responses to Arbuscular Mycorrhizal Fungi in Aerobic Rice
Emily Servante University of Cambridge, United Kingdom

16:15–16:30 (15 min) OS1-02
Uncovering the Transcriptomic Signatures Associated with Arbuscular Mycorrhizal Responsiveness in Rice.
Alessandra Learmount University of Cambridge, United Kingdom

Biotic Stresses
Vibhavadee Ballroom C

15:30–15:50 Coffee Break (20 min)

15:50–16:05 (15 min) OS3-07
Brown Planthopper Survival on Rice Treated with Nanosilica Through Different Application Routes
My Syahrawati Universitas Andalas, Indonesia

16:05–16:20 (15 min) OS3-13
Exploring Arbuscular Mycorrhizal (AM) symbiosis in Rice
Stella Pozzi University of Cambridge, United Kingdom

Abiotic Stress (II)
Ladprao Suite 3-4

15:20–15:35 (15 min) OS3-09
Cytokinin Strengthens Antioxidant Defense and Restructures Metabolomic Landscape to Rescue Rice Growth Under Arsenic and Cadmium Stress
Pravneet Kaur Jamia Hamdard, India

15:35–15:55 Coffee Break (20 min)

15:55–16:10 (15 min) OS3-02
Rice Seedlings Respond to Phosphorus Deficiency in a Manner Comparable to Shading: Evidence from Leaf Pigmentation, Anatomy, and Hyperspectral Profiles
Pattanapong Jaisue Faculty of Science, Prince of Songkla University, Thailand

16:10–16:25 (15 min) OS3-01
Promoter Architecture and Transcriptional Regulation of Genes Upregulated in Germination and Coleoptile Elongation of Diverse Rice Genotypes Tolerant to Submergence
Bijayalaxmi Mohanty Environmental Research Institute, National University of Singapore, Singapore

16:45–17:00 (15 min)
Free time & move to Vibhavadee Ballroom B

17:00–17:30 (30 min)
Awards & Closing Ceremony
Vibhavadee Ballroom B

Dr. Krissanapong Kirtikara **Chairman of Kasetsart University Council, Kasetsart University, Thailand**
Presides over the presentation of the conference awards and delivers the Closing Remarks, officially declaring ICRF2026 closed.

Hosted & Supported by

Sponsors & Exhibitors

List of hosts, supporters and sponsors

HOSTED & SUPPORTED BY

- Ministry of Higher Education, Science, Research and Innovation (MHESI)
- National Research Council of Thailand (NRCT)
- Kasetsart University (KU)
- National Hub of Knowledge on Rice (Hub of Rice)
- Thaksin University (TSU)
- Rice Department (RD)
- National Science and Technology Development Agency (NSTDA)
- Thai Rice Foundation under Royal Patronage
- Agricultural Research Development Agency (ARDA)

SPONSORS & EXHIBITORS
